PROFILE

I am a passionate Computer Science Graduate, with a diverse set of work experience. This includes programming, software development, and consulting. I have come to understand that there are different ways of dealing with people and have learnt and continue to learn effective means of communicating with them. I am on a continuous quest of self-improvement and learning, if reaching my goal requires a particular skill, I make sure to learn it effectively.

I am currently looking for an exceptional graduate role that will further develop my technical, management and people skills to help me build a strong understanding of the industry, in hopes of one day reaching my goal of becoming a future leader in it.

PROJECTS

City Explorer

Android, Java, Firebase

📅 Spring 2020 📍 London

- Produced for my graduation project.
- City Exploration App that allows for discovering new locations.
- Allows for path generating, City traversal and file uploading.

SFTP Intern Project

Ruby on Rails, React

📅 Summer 2019 📍 London

- Created a File upload Service that works like Dropbox and Google Drive for companies.
- Users can upload and send multiple files to the recipient of choice securely.
- Has its own user registration system and optimized admin panel.

Face Detection Application

React.Js, Node.Js, Express.Js

📅 Spring 2019 📍 Berlin

- Created a fully responsive application that detects faces of uploaded images.
- Once detected, the application will highlight faces by drawing blue squares around them.
- Has its own user registration page that is fully functional with a working server and database.

Flask Anime Blog

Flask, Python

📅 Spring 2018 📍 London

- Fully functional Anime blog built using Flask
- The web app allows users to view and write reviews about shows of choice.
- Other features include being able to view lists of upcoming and existing shows.

WORK EXPERIENCE

Summer 2019 Internship Duco Technology

Worked as a Software Engineering Intern for eight weeks at Duco, where I built a web application that allows users to securely upload their data through an easy to use graphical user interface, at Duco I also got the opportunity to learn about the industry and its standards.

Brandway Group Ltd

For my part time job I am a Financial analyst for Brandway Group Ltd, a wholesale company

Lcl Community School

On Saturday's I Volunteer to Teach Arabic at a Saturday school for kids aged 5+

Game Project

This project required participants to all create a level for a game using the P5.JS framework, which would then all be merged into one big game.

SKILLS

Java Python Ruby On Rails
Html, CSS Matlab React Flask
Git Android MySQL Docker
Kubernetes Agile Development

LANGUAGES

English
Arabic

EDUCATION

BSc (Hons) Computer Science Degree

Goldsmiths University of London

📅 Sept 2017 – July 2020

A-levels in Mathematics, Arabic and Product Design

Richmond Park Academy

📅 Sept 2015 – July 2017
